LECTURE BY HULLEY TONIGHT

LARGE CROWD WILL HEAR
"RILEY AND HOME FOLKS"

PRESIDENT OF STETSON UNIVER-
SITY TO DELIVER FAMOUS
LECTURE IN HIGH SCHOOL AU-
DITORIUM.

Dr. Lincoln Hulley, president of
Stetson University, came over from
DeLand today to fill his appointment
to lecture in the High school auditor-
ium this evening on "Riley and the
Home Folks."

The lecture is to be given under
the auspices of the Daytona Lodge
of Elks and will probably be deliv-
ered to the largest audience which has yet
gathered in the High school auditor-
ium. According to an agreement
made with Dr. Hulley an admission
fee of 25 cents will be charged for the
lecture, the money to go into the
charity fund of the Elks' lodge to be
used for charitable work at Christmas
time.

"Riley and the Home Folks" is
probably the best of the lectures on
which Dr. Hulley has gained a na-
tion-wide reputation as a humorous
lecturer, and he has selected this one
to present to the Daytona audience
because of the impression he gained
of the local lodge when he delivered
the annual memorial address here re-
cently.

The lecture will begin at 8 o'clock.
For the convenience of the people
of Daytona Beach and Seabreeze the
ferry will leave its Daytona Beach
dock at 7:15 this evening and return
after the lecture.

CONRAD IS WELL PLEASED WITH NEW BANK BUILDING.

VICE-PRESIDENT DRIVES OVER
FROM DeLAND AND SPENDS
THE DAY HERE TO INSPECT
NEW STRUCTURE.

The construction of the new Mer-
chants bank building is progressing
in a satisfactory manner, and, unless
present plans miscarry, the building
will be ready for occupancy by some
time in February. This is the opin-
ion of J. B. Conrad of DeLand, vice-
president of the Merchants' bank,
who drove over from the county seat
town and spent the day Sunday in
Daytona.

Mr. Conrad is well pleased with
the way the construction work is
going forward, it being farther along
than he had expected to find it at
this time. The vault material is here
and if the interior furnishings are
finished by the time the building is
ready he anticipates the bank will
be ready for business at the new
stand by the middle of February.

Mr. Conrad says there are more
people in Daytona now than he has
ever before seen at this time of the
year and he looks for the biggest
season in the city's history.

He was accompanied on the trip
to Daytona by R. M. and M. M.
Bond of Lake Helen.

HAWKS PARK SCHOOL HOUSE DESTROYED.

R. H. McDonald reports that on his
return from Oak Hill Sunday after-
noon the school house at Hawks
Park was burning. He stopped at
the building and waited until it had
been entirely consumed. The origin
of the fire is unknown.

Chairman Crouch of the County
School Board states that a new
building will be erected immediately.

PORK PRICES ARE LOWER;

SHADE REDUCTION IN PRICES OF
HOGS AND CATTLE PROBABLY
DUE TO REACTION AFTER RE-
CENT JUMP.

CHICAGO, Dec. 12—Hog receipts
on the Chicago markets were heavy
today and the price was a shade
lower than Saturday. The cattle re-
ceipts were also very heavy and the
price quoted was 10 cents lower.

The reason for the heavy shipments
of hogs and cattle to the markets to-
day is believed to be the sudden
boost in the price of pork announced
last week. The influx of live stock
may have the effect of bringing a
sharp reduction in the prices.

PASSENGERS AND CREW

REVOLUTION IS FEARED IN ENGLAND.

CIVIL WAR IS IMMINENT
AS RESULT OF ELECTIONS.

GREAT BRITAIN THREATENED
WITH CRISIS WHICH MAY TEAR
THE GREAT EMPIRE ASUNDER.

LONDON, Dec. 12—While the poll-
ing is proceeding in the English
elections today the greatest interest
is centered in Ireland, where a cha-
otic condition prevails and where
open conflicts between armed forces
may bring on a civil war that will
break Great Britain asunder.

The magnitude of the crisis threat-
ening the empire is just being real-
ized.

At noon today the government coal-
ition forces had a lead of 52 in the

SNOW COVERS VIRGINIA;
BUSINESS IS CRIPPLED.

WASHINGTON, Dec. 12—A heavy
snow storm is sweeping over West
Virginia cutting off many towns and
closing numerous lumber plants and
other industries. In many places the
snow is five feet deep and is drift-
ing heavily.

The fishing appears to be pretty
good at present. Several parties
were noticed Saturday carrying nice
strings of fish and John Smith, the
colored fisherman, came in with 30
fine trout.

Don't Depend On Memory.

The chances are that four or five
months after you pay a bill, you for-
get about it. Suppose that same bill
should be presented to you—possibly
you could remember about paying it;
but nine out of every dozen bills you
pay, you forget about in six months.
Some you could not recall after six
weeks. Pay all bills by check—file
your checks. Six years afterward
you can turn to the checks, if nec-
essary, and produce undisputable evi-
dence of every bill paid. WHY be

WHITE AS CHIEF JUSTICE; NAME SENT TO SENATE.

HARD ROAD MOVEMENT PROGRESSES.

CONROY VISITS DAYTONA
LOOKING OVER THE ROADS.

PRESIDENT OF JACKSONVILLE
BOARD OF TRADE AGREEABLY
SURPRISED AT CONDITIONS IN
THIS PART OF THE STATE.

The proposition to build a hard
surface road the entire length of the
East Coast, connecting with a splen-
did driveway all coast towns between
Jacksonville and Miami, is not an
idle dream but an idea that may soon
be turned into reality. This, it least,
is the belief of Francis P. Conroy,
president of the board of trade of
Jacksonville, who has been pushing
the matter and drove his automobile
from Jacksonville to Daytona for the
purpose of investigating conditions
along the way.

Mr. Conroy expresses himself as
agreeably surprised and pleased with
the condition of the roads in this
part of the State. He says the peo-
ple in the north part of the State
do not realize what a beautiful city
country surrounds it. He believes
country surrounds it. He believes
that with a hard surface road there
would be many Jacksonville people
driving to Daytona every Sunday to
spend the day here and at the beach.
He went over the roads between
this city and DeLand and New
Smirna and says he is surprised that
we have such first class roads for
automobiles. The roads all the way
through from Jacksonville are in
much better condition than he ex-
pected to find them.

Mr. Conroy says the movement to
interest all of the towns along the
East Coast is growing and there is
more interest being taken in the mat-
ter than the promoters had hoped for
to start with. He says he purposes
to call a convention to talk the mat-
ter over and lay out plans and that
the meeting will probably be held
some time in February or March at
some convenient city on the East
Coast between Jacksonville and Mi-
ami.

Mr. Conroy was accompanied on
his trip here by his wife and son,
Phillip, and Mr. and Mrs. E. C.
Schwartz. The party is stopping at
the Prince George and will return to
Jacksonville Tuesday.

TALKING OF FLORIDA
AUTOMOBILE MEET.

The motoring department of the
New York Globe, edited by "Motor-
ing" Morgan, has the following to
say regarding an automobile race
race meet in Florida this winter:

"There is an opportunity for some
man or men to promote a race meet
in Florida this winter. The Jack-
sonville Automobile Club as well as the
Florida East Coast Automobile Asso-
ciation are looking for volunteers who
can bring a string of racing automo-
biles and aeroplanes to Florida. Last
winter the Pickens-Oldfield combina-
tion gave a meet, and many records
resulted, but this winter the latter
combination is experiencing a winter
of discontent with the A. A. A., be-
ing branded as outlaws.

"Ernest Moross writes The Globe
from Detroit to the effect that two
manufacturers had approached him
in regard to a meet in Florida, and it
may be that he will undertake to
organize one."

Miss Salter, teacher of the sixth
grade in the public school of this
city, was called to Salisbury, N. C.,
Friday, by the illness of her father.

DEMOCRAT TO HEAD COURT; TAFT MAKES APPOINTMENT.

PRESIDENT ALSO NAMES LAMAR
OF GEORGIA AND VANNEVEN-
TER OF WYOMING TO BE ASSO-
CIATE JUDGES.

WASHINGTON, Dec. 12—President
Taft today sent to the senate the
following nominations: for chief jus-
tice of the supreme court of the
United States, Edward White of
Louisiana; for associate judges, Jo-
seph Lamar of Georgia and William
Vannanter of Wyoming; for chief
justice of the United States commerce
court, Martin Knapp of New York;
associate justices, Robert Archibald
of Pennsylvania, William Hunt of
Montana, John Garland of South Da-
kota and Julian Mack, of Illinois;
members of the interstate commerce
commission, Prof. H. B. Meyer, of
Wisconsin and C. C. McChord, of
Kentucky.

Justice White will be the first dem-
ocrat ever appointed to the chief
justiceship by a republican president.
He sided with the minority in the de-
cision upholding the income tax dur-
ing the Cleveland administration.

A storm of strong criticism arose
this morning when the forecast of
the president's state and judicial
appointments was announced. The op-
position was especially strong to the
appointment of Justice White to the
position of chief justice of the su-
preme court and the White House
during the day received messages
from all sections of the country pro-
testing against the nomination.

Strong opposition also developed to
the appointment of Commissioner
Knapp to the chief justiceship of the
new commerce court, who was bitter-
ly opposed by the shippers on ac-
count of his recent pro-railroad
speech.

The advancement of Justice White
has placed a Confederate veteran in
the highest judicial position in the
United States. Associate Lorton is
also a Confederate veteran.

Of the appointments today Van-
nenter, Knapp, Archibald and Hunt
are republicans, while White, Lamar,
Mack and Garland are democrats.

The appointment of Shields War-
ren of Florida as receiver of public
moneys and Henry Chubb of Florida
as register of the land office at
Gainesville, Florida, were also an-
nounced by the president.

At the session of the senate this
afternoon the appointment of Chief
Justice White was confirmed.

FOR EAST COAST HIGHWAY SENTIMENT IS GROWING.

LETTERS NOW BEING SENT OUT BY JACKSONVILLE BOARD OF TRADE ASKING CO-OPERATION OF COUNTY COMMISSIONERS.

JACKSONVILLE, Dec. 12—President Francis P. Conroy and Secretary H. H. Richardson, of the board of trade, have sent out letters to the county commissioners of the east coast counties, asking them to cooperate in the building of a highway from Jacksonville to Miami.

If this road is built it will be one of the best investments the east coast could make, because of the tourists who will use it. It will be one of the finest drives in the United States, and will be a great attraction for automobilists all over America.

The following letter has been sent to the county commissioners of the east coast counties:

Dear Sir:—You have probably noticed in the papers that the Jacksonville board of trade inaugurated the movement for a highway from Atlanta to Jacksonville, and that committees of the chambers of commerce of Atlanta and Macon, and of the board of trade of Jacksonville have made two trips, investigating the most suitable routes. This work is now well under way, with splendid prospects of the early completion of a good system of hard roads between Atlanta and Jacksonville. We are now desirous of turning our attention to a highway from Jacksonville south along the east coast.

The county of Duval has a road now graded and partially hard-surfaced to the St. Johns county line. St. Johns county, we understand, has the road graded from the Duval county line to St. Augustine. We would like very much to hear from you as to whether you would cooperate with all the east coast counties in making a highway the entire length of the state. We would appreciate it very much indeed if you will advise us in reply to this letter, how much of the work has been done in your county toward a north and south highway.

We need hardly point out to you the tremendous advantage your county will receive by the accomplishment of this great project. Will you not kindly have this matter taken up at the next meeting of your county commissioners, and advise us as early as possible, what decision is arrived at? Very truly yours,

"MUSIC HALL GIRL" SHOW PROVES GOOD ATTRACTION.

LARGE CROWD ATTENDS FIRST SHOW OF THIS KIND IN NEW DAYTONA THEATRE SATURDAY EVENING.

The Music Hall Girl, the first attraction of the kind presented in the new Daytona theatre, was the attraction for a large audience Saturday evening and the people showed keen appreciation of the play and the acting.

The company is not a large one, but well balanced and the situations into which the people were plunged by the strong desire of two young people to gain the girl's parents' consent to a marriage were ludicrous. The audience was kept in a continual roar of laughter.

The shows so far presented by Managers Sneed and Morris of the Daytona theatre have been well patronized and the managers are encouraged to continue with a line of good shows this winter.

NEW AUTOMOBILE BUS NOW IN OPERATION

The Ridgeway Auto Transfer Company's new bus made its first trip to the F. E. C. Railway depot last Friday afternoon. This large bus will make regular trips to and from the Daytona Beach, carrying guests of the Seaside Inn and other hotels on the peninsula and of The Austin in this city, as well as doing a general passenger business.

Two motor busses and a motor truck for the Hotel Clarendon have arrived at the railroad station and will be unloaded and taken to the Clarendon garage. The truck will be put in use at once hauling furniture and supplies.

Trophies of the Chase. Sportman (to admiring friends)—This bullet hit me while I was hunting in the Adirondacks; I was taken for a deer. This one I got in the Canadian Rockies; I was taken for a mountain goat. This one, up in Maine; hunter thought I was a wildcat. I've got three others, but on those occasions I never found out what I was taken for!—Puck.

When Ships Crash Steel Crumples Like Paper and Panic Follows

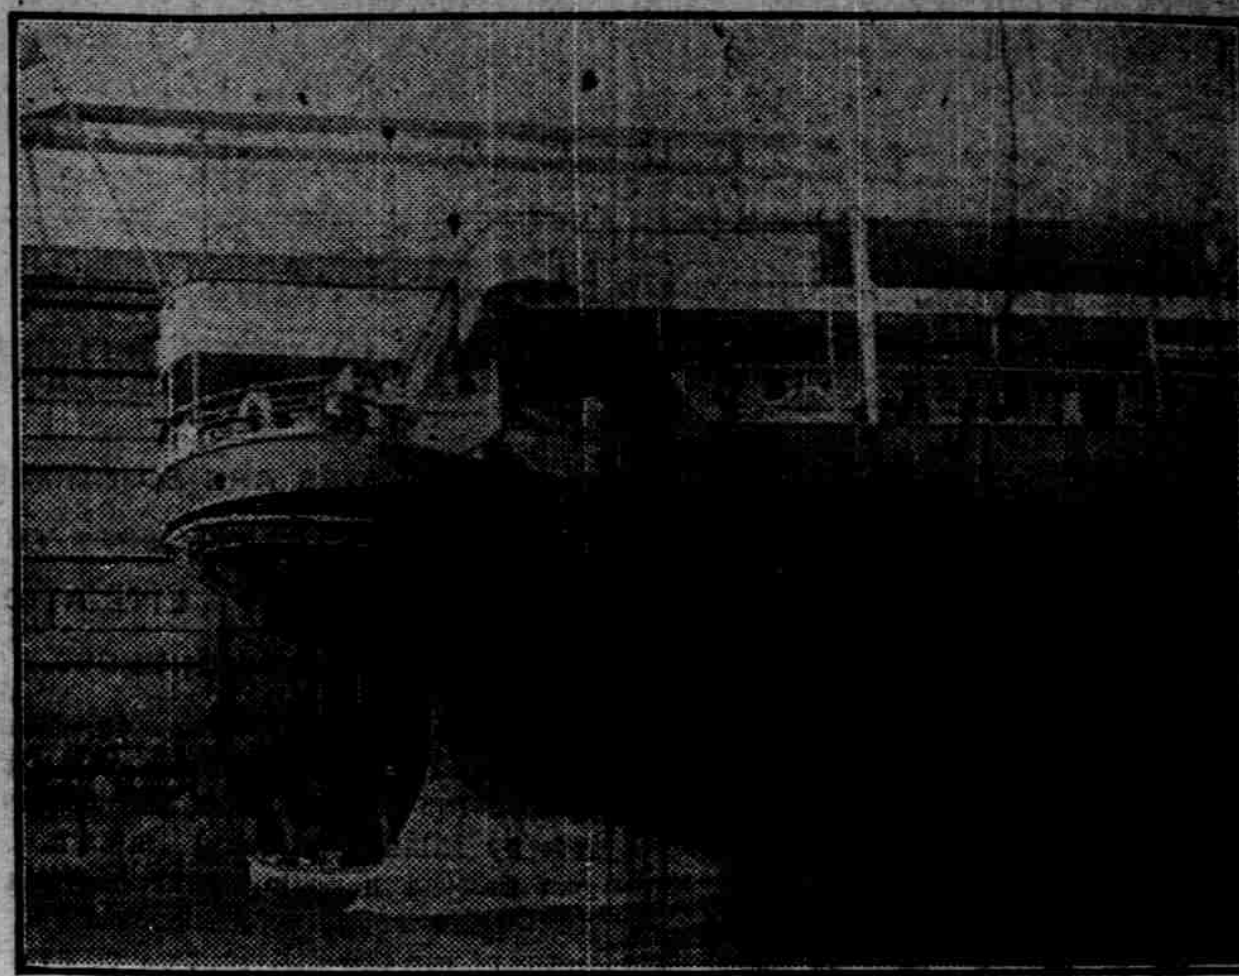

Photo by American Press Association.

When two giants of the sea crash something is always sure to give way. An idea of the force of two ships when they collide is shown by the great holes torn in the bow and stern of the steamship Prinz Friedrich Wilhelm and the French liner La Lorraine in the North river. Both ships were under reduced speed when the collision came. The French and German officials blame the currents of the North river for the accident. The harbor officials declare the captains of the ships are to blame. Shipping industries in New York are waiting with much interest the outcome of the official investigation.

HAD NARROW ESCAPE FROM DEATH BY FIRE.

George Harris, well known in this city and vicinity, having made his home with his brother at Holly Hill during the winter for many years, had a narrow escape from death by fire last week, while visiting a brother near Albion, Ill. The house was destroyed by fire during the night and Mr. Harris and members of the family escaped only in their night clothes. Mr. Harris is now visiting at New Harmony, Ind. He will not come south as usual but will spend the winter with a son at Cleveland, Ohio.

Standing Room Only.

The regular umpire was sick, and a kind old gentleman from the country agreed to do the best he knew how. All went well until the fifth inning, when, with the bases full, the pitcher got wobbly and put over four wide ones and the batter started to take his base. "What will we do with the young feller," asked the old man of the pitcher. "We ain't got no place to put him."—Success Magazine.

**NAUTILUS
WILL BE
FINISHED**

**RICHARDSON HAS CONTRACT;
BEGINS WORK NEXT MONTH**

JACKSONVILLE CONTRACTOR TO
FINANCE UNDERTAKING AND
COMPLETE BUILDING BY JANU-
ARY 1, 1912.

The Nautilus hotel, work on which was stopped several months ago because, as pointed out by the officials of the company, the building could not be finished in time for the hotel to be opened for business this season, will be completed during the next year and will be ready for business by or before the first day of January, 1912.

Assurance is given that the hotel building will be finished by that time by the fact that the contract for the construction has been let to Frank Richardson of Jacksonville, who announces that he will begin work on the structure not later than the 15th of next month, and hopes to have the work started by January 10th. Mr. Richardson is the contractor who built the big Seminole hotel and the Morocco Temple building in Jacksonville.

Mr. Richardson will sublet the contract for the construction of the Nautilus, but he will finance the undertaking and the building will be finished according to the original plans, with the exception of a few minor changes. It will be strictly fireproof, built of coquina rock, and the building and grounds will be completed by January 1, 1912.

According to the terms of the contract made with Mr. Richardson the company will retain their holdings and this transaction will make no difference in the bond issue. The present officers of the company are C. M. Carrier, president; E. D. Langworthy, vice-president; T. F. Williams, secretary and treasurer. Secretary Williams left this morning for Jacksonville to arrange the final details of the deal by which the construction work will be turned over to Mr. Richardson.

**DESPLAND HOTEL IS OPEN;
GOOD SEASON LOOKED FOR.**

POPULAR HOSTELRY ENTER-
TAINS ITS FIRST GUESTS FOR
THE TOURIST SEASON OF THE
WINTER 1910-11.

The Despland Hotel is open for the season of 1910-11, the first guests at this popular hostelry being entertained today.

For the past two weeks Proprietor L. M. Waite has been busy superintending the work of putting the big hotel in condition for the opening and there was little left to be desired when the doors were thrown open to the public Monday morning. Few changes have been made in the building, except repainting and redecorating on the interior and the grounds have been worked into an attractive appearance.

Mr. Waite has gathered about him practically the same force of help employed at the hostelry last season, which insures the best of service to the guests. L. J. Waite will hold the position of chief clerk, while W. A. Murray will be behind the counter on the night shift. The same chef, who has been with Mr. Waite for several seasons, will superintend the preparation of the meals.

The first guests registered at the Despland Monday included Col. A. Sollday, Watertown, Wis.; Mrs. M. P. Winterbottom, New York; Mr. and Mrs. Geo. E. Rogers, Brookline, Mass.; Mr. and Mrs. E. P. Porcher, A. G. Porcher, Miss A. A. Porcher and Miss Catherine Callaway, all of Cocoa, who came up to Daytona in an automobile Sunday. They will probably return to their home Tuesday.

ANNUAL MEETING OF
JOE HOOKER POST, G. A. R.

The annual meeting of Joe Hooker Post, No. 9, G. A. R., will be held at the Elks lodge rooms over Rowe's jewelry store, Friday, Dec. 16 at 2 p. m., for election of officers and such other business as may lawfully be done. Visiting comrades are invited to meet with the Post and old soldiers are now invited to join with us in recruiting the Post.

By command of G. H. Matthews, Commander.
By T. H. Cave, Adjutant.

**WIRELESS
STATION AT
CLARENDON**

**NOVEL FEATURE PLANNED
WHEN HOTEL IS FINISHED**

WILL GIVE THIS VICINITY THE
ONLY WIRELESS STATION BE-
TWEEN JACKSONVILLE AND
KEY WEST.

The Hotel Clarendon is to have a wireless station, was the announcement made by E. L. Potter this morning. The United Wireless company of New York has made arrangements to have a station at the hotel during the winter months, which will make Seabreeze the only point between Jacksonville and Key West where messages may be received and sent. With the wireless at the Clarendon the people at Daytona and vicinity will be able to keep in touch with the outside world and communicate with friends on any of the passing steamers.

The construction of the hotel is moving along at a rate that should see the building completed in a couple of weeks with the house in readiness for the opening. Over eighty per cent. of the furniture is here and is being set up as fast as possible in the rooms which are already carpeted. The guest rooms are being furnished, with the exception of the brass beds, in solid mahogany, making it harmonize with the colonial finish of the white woodwork and mahogany doors. All the baths are being fitted entirely with white enamel, the hardware on the windows and doors is nickel with the glass door knobs and the floor is buff marbleoid.

Practically all of the construction work now being done on the hotel is the painting and decorating, at which the contractors have a large force of men working night and day to finish. The mechanical end of the building is keeping a pace with the rest of the work as they now have completed the installation of the ice machinery, with which the hotel is going to manufacture its own ice during the season. For the past week the building has been furnished with steam heat, which will give the building three weeks in which to thoroughly dry out before the opening, a feature which is often overlooked in new hotels.

All the rooms are connected, making it possible for a party to have a suite of any number of rooms and baths. In addition the hotel has four private suites of two bedrooms with bath and dining room and parlor connected with a private hallway, making it possible for a family to have all the exclusiveness of a private home with the conveniences of a modern hotel.

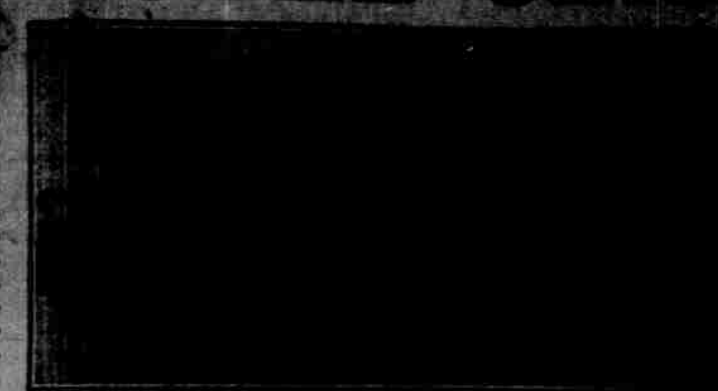

In the lobby, in addition to the office the hotel has granted concessions to Foster & Reynolds to operate a curio store as well as their information bureau; to Madame Moghaghbab, a gown shop, which she will operate in connection with her places at the Royal Poinciana at Palm Beach, the Ormond at Ormond Beach, and the Mount Washington at Bretton Woods, N. H.; to Maynard & Company of Boston, Mass., who will have an exclusive jewelry store, all of this in addition to the railroad ticket offices, the Western Union and telephone booths.

**A LITTLE TALK FROM THE
EDITOR**

The Daily News and the Gazette-News make a charge of one-half rate for advertisements of church festivals and other religious and charitable affairs where an admission fee is charged or money collected from the sale of articles of any kind. We felt that our contribution to the cause is 50 per cent. of the regular charge, which we invariably deduct from the bill, making the net charge for readers five cents per line.

There is a point, however, about which many persons neglect to think, and it is this: Where the placards or other printed matter necessary to these church socials, etc., is printed in the Gazette-News Printery we give the affair a "story" in the Daily News. Where the printing is done elsewhere we cannot be consistently expected to "boost" the affair.

This little moral is mentioned only because many persons have never perhaps thought of it in this light.

THE EDITOR.

SEABREEZE and DAYTONA BEACH, two enterprising and progressive towns on the Halifax Peninsula, are geographically one although incorporated as separate municipalities. The towns parallel the peninsula north and south for a distance of from three and one-half to four miles, and extend east and west from the surging seas of the Atlantic Ocean to the Halifax River, the beautiful tide water stream that sets them apart from Daytona with which they have close communion by means of three bridges, as well as a half-hour ferry service.

Seabreeze and Daytona Beach are essentially summer and winter resorts and are making hundreds of new friends every year among those who desire to escape the discomforting extremes of heat and cold, and their hotels and boarding houses are now receiving splendid patronage from the most discriminating class of tourists.

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction, although earth, air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straight-away record has been made, and all these records it continues to hold without rivalry.

The beach has a width of 300 to 500 feet and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobilizing some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors in both towns.

All the attractiveness of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all-year-round occupancy.

**DAILY NEWS
WILL ISSUE
BIG EDITION**

**OPENING OF CLARENDON
TO BE THE OCCASION**

**SIXTEEN PAGES WILL BE DE-
VOTED TO PICTURES AND DE-
SCRIPTION OF MANGIFICENT
HOSTELRY JANUARY SECOND.**

Always alive to progressiveness the Daily News is planning to issue a sixteen-page "Clarendon Special Edition," the 2nd of January, the occasion of the formal opening of the magnificent Hotel Clarendon, now undergoing the last stages of completion.

By pen and picture this peer of any southern hotel will be described at length and in addition most of the firms who participated in its construction either by labor or the furnishing of materials, will be represented in the advertising spaces. This edition will also tell the story of the formal opening.

The edition will be several thousand copies, as many persons will desire numbers of the edition to send to friends all over the country. The Daily News has already booked orders for several hundred copies and in anticipation of a heavy demand will try and make the edition large enough. For those who so desire we will mail the papers to any list of addresses that may be sent to us. The price of this edition will be five cents a copy or 24 copies for \$1.00, orders and remittances for which may be sent to us at any time before January 2, for papers to be mailed on that day.

They Commenced.

An Irishman on being made foreman of a gang of laborers wished to show his authority to those under him on the first morning of his promotion.

"Now, look here, boys," said he, "when I say commence you have all to commence, and them that don't commence when I say commence won't commence. So commence."

**Heart to Heart
Talks.**

By EDWIN A. NYE.

THE LAW OF ASSOCIATION.

Like attracts like.
The chemist well understands that law. He knows that certain atoms have an affinity for each other—the law of chemical affinity. The law is true of people as of atoms. Those that are alike mutually attract each other, because the law of the spiritual world is the same as the law of the natural world.

That is to say—
If a man is brutal in his feelings, coarse in moral fiber and loud in his conduct he will attract to himself those that are brutal and loud and coarse. If he does not find his sort his sort will find him.

Contrawise—
If one is fine in his instincts, quiet in his tastes and modest in his conduct he will find himself drawn instinctively toward those who are fine and quiet and modest. He whose conduct is upright and whose life is pure and whose ideals are high will be naturally inclined toward those whose conduct and morals and ideals are like his.

Like enjoys like.
The man of upright disposition and pure morals cannot enjoy the companionship of the low and the criminally inclined. Such association would be painful. And the greatest punishment the criminal could undergo would be to put him in daily contact with the morally clean.

Like assimilates like.
That is the subtle law of the mind. It is as true as the law of gravity, as true as the law of crystallization, that a human being is changed, transformed into the likeness of the being whom he loves and admires. If he loves and admires the good he will be gradually fashioned into the likeness of the good; if he loves and admires the bad he will by the same law be transformed into the likeness of the bad.

Like holds to like.
There is such a thing as being CONFIRMED in character. One who constantly companies with the good and the worthy will become habituated to good, fixed in his thought, habit and purpose. One who constantly consorts with the bad accustoms himself to evil and fixes his thoughts and habits and motives toward evil.

Young man, young woman—
Did you fancy that good or bad character was a matter of chance? It is the product of unalterable laws, chief of which is the law of ASSOCIATION.

The Author's Remarkable Story
Was a Halfway Success.
George Henry, the author of "Heart to Heart Talks," is described in "The Wilderness," by Henry W. Lacy, as the warmest hearted, shortest tempered man in the world.

"Before he found his true vocation in writing boys' books Henry tried various methods of supplementing his salary on the Standard. One was the recovery of tin from broken or disused utensils. For some months his study was filled with a bad smell and scraps of broken tin. The smell was engendered by efforts to melt off the tin from the baser metal with the assistance of a chemical compound invented by the operator.

"The next thing that attracted Henry's attention and filled him with hope of fortune was the building of a reversible boat, bound to right itself automatically. He took rooms up the river and, with some assistance from a village mechanic, built his boat. To a certain extent it proved an unqualified success. At the slightest well directed touch, sometimes without it, it would turn over, keel uppermost, with Henry in the river. Righting itself was, as the French say, 'another pair of sleeves.'

"Through some anxious weeks he was frequently ignominiously rescued by a passing boat and walked home, oozing water from pockets and boots. In the end his landlady gave him notice that she could not be always mopping up after him. I fancy he gladly seized this opportunity of retiring from the boat building business."

Stories of the Gravediggers.
Grimly humorous is the tale of the Scottish gravedigger who complained that he did not get constant work.

"But, George," said the minister, "if you were to be constantly employed in the duties of the office you would soon bury the whole parish."

"That might be, sir, but how am I to keep a wife and family unless I get regular work? 'Deed, sir, I havena buried a leevin' soul for the last six weeks."

Harder still was the case of another gravedigger who was asked to reduce his fee for digging a grave because, "mind ye, James, she was an auld woman and was sair spent."

Malay Houses.
Malay houses are invariably built on posts so as to raise the floor from four to six feet above the ground. The floor is composed of bamboo, with interstices between slats, the earth beneath becoming the receptacle of the drainage of the establishment. The universal plan of the well to do natives is to build the house in two divisions, the front one for receiving visitors and lounging generally, while the rear portion is reserved for the women and children.

One of the most beautiful spots in the world is the beach of the Halifax River. The beach is of pure white sand, the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Daytona Beach. Many fine homes are maintained on either side of the river, most of them surrounded by subtropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

Ormond has many attractions—excellent automobilizing, good fishing, safe boating, and many pleasure drives. At Ormond Beach is located the large Hotel Ormond, and its lesser sister, the Breton Inn. The former occupies a position overlooking the Halifax, and the latter has as its outlook the magnificent beach and the broad Atlantic.

Besides the hotels, smooth beach, there are many drives for carriages and automobilizing around Ormond—drives to and through groves of golden oranges; drives through tropical forests to Spanish ruins; drives to the ancient Ocala way built by slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of the most interesting of these plantations is at the headwaters of the Halifax and known as Moundgrove. It is one of the finest orange groves on the East Coast of Florida and is amid very pretty surroundings. Moundgrove is on the Daytona-Saint Augustine road.

ATTENTION ON POTTER

SPANIARD HAS FORTUNE IN THE UNITED STATES

OFFERS TO PAY LOCAL MAN \$110,000 TO COME TO SPAIN AND PAY HIS FINE SO HE CAN GET OUT OF JAIL.

There are many suckers in the world and Daytona and vicinity may have its share, but Dr. E. L. Potter is not among the number. At least he isn't the "pay mark" that at least one person thought him to be, and he has refused to bite on the old gag of making a trip to Spain to pay the fine of one V. ex Nanker in order to help that person escape his freedom to come to the United States and get possession of a fortune of \$330,000, one-third of which he offers to Dr. Potter.

This filth-flam game has been worked before, but probably no attempt has ever been made to catch a sucker in this part of the country. It was frequently resorted to a number of years ago, until the postal and government authorities of both countries put a practical stop to it. When these letters were stopped from going through the mails the cables were resorted to with some degree of success.

The letter received by Dr. Potter is similar to the ones exposed previously and is as follows:

"Madrid, 31-10-1910.

"My Dear Sir:—I am imprisoned in this city and I beg to beseech you herewith whether you want to come here to take away my equipments seizure in order to seize upon a trunk containing a secret in which I have hidden an document indispensable to you to come in possession of 330,000 dollars that I have in the United States.

"As reward I will yield you the third part of the aforesaid sum.

"Fearful that this letter don't arrive at your hands, I will wait your answer, and then I will say you my secret with every detail and to subscribe with my name.

"As here is a newspaper that publish all the cablegrams whose address are unknown, which it is allowed to me to read, and as I can not receive

back in the post your reply, you must send a cablegram to the address indicated at the end. Notwithstanding your cable not to reach to me, this will be the sufficient to know that you accept my proposition.

"Awaiting eagerly to read your missive,

"Truly ascribe,

"V. EX NANKER."

"Above all please to answer by cable, but not by letter as following: Emiliano Carri, Divino Pastor 41 Madrid"

GROWERS MEAN BUSINESS; WILL SEEK LOWER RATES.

ANNUAL MEETING AT MIAMI SHOWS ALL FRUIT AND VEGETABLE MEN ON EAST COAST ARE DETERMINED.

MIAMI, Dec. 12.—In the proceedings of the East Coast Fruit and Vegetable Growers' association at its meeting in Miami there was such a lack of anything approaching the hysterical or sentimental as to arouse comment.

The men who were present realize that all that is to be done must be done in a businesslike, methodical and persistent manner, that the work before the association is spread out over many years to come and that the contest with the transportation companies must be conducted by the same methods as are employed by the opposing side.

A year ago last July, when the association held its first meeting, the occasion was taken for the members to air their grievances—to give accounts of the ill-treatment that they had received at the hands of the express and railroad companies and much time was consumed in "hot" expressions of the feelings of the unjustly treated farmers.

At the meeting here there was none of this—not because it has ceased to be, but because it has come to be an accepted fact. Everybody is more or less in the same boat and the idea is to steer the craft into more pleasant waters by the right kind of compass, the right kind of pilot and—no body rocking the canoe.

Though Very Dry.

"How was the sermon?" "Remarkably well preserved considering its age."—Life.

THE CHRISTMAS BURGLAR MAN

"Is your father at home, kid?" He was not altogether an unpleasant looking man who addressed the question to a fair haired child alone on the veranda of a suburban villa late in the afternoon of the day before Christmas.

The little girl stopped playing, frowned prettily and answered:

"My name's Muriel, not kid, and my papa never gets home till long after I've gone to bed. What's your name?" The hulking fellow averted his eyes and answered her question by asking another.

"Who else lives with you?"

"Oh, my little brother—you haven't seen him, have you?—my mamma and Mary. Mary's the servant, you know."

"Good day, young 'un," said the tramp as he ambled away.

"Muriel I'm called," she shouted after him. "Will you come again?"

"Thank'ee; I reckon I will," he answered.

"Oh, wait a minute, papa; I'm so sleepy!"

Muriel knelt up in her little bed, rubbed her eyes and shook her golden curls out. It was midnight. Having

"WHERE ARE YOU GOING NOW?" SHE ASKED.

completely recovered from dreamland, she looked at the tall figure beside her bed and gasped with delight when she realized that her long cherished desire was going to be carried out. Papa had often promised to play at burglars with her, and there he was, quite ready, with the black mask covering his eyes and a little lantern that gave only a wee light.

"Oh, papa," she cried, "you do look a funny burglar! We'll take ma's jewelry first. Won't she be surprised?"

The midnight intruder nodded. "Where does ma keep it, Muriel?" he asked. "Burglars don't know where things are, you know. That's half the fun of it, eh?"

"Oh, you are funny, papa! Let's whisper softer. It's on the dressing table in one of the little drawers. S-s-sh!"

Muriel felt herself lifted shoulder high. "Now, then, ki—Muriel," he whispered, "when we pass your mamma's room, ki—Muriel, you just point to it and keep as quiet as a mouse. That's the proper way, isn't it?"

She nodded delightedly and did as he wished.

"Where are you going now?" she asked almost inaudibly as she was being carried downstairs.

"Why, somebody must keep watch. Don't you know that one burglar takes the things while another keeps watch?"

He carried her down into the cellar. It was very dark and cold, but Muriel said she wasn't afraid because they were only playing burglars.

"Now, then, ki—Muriel," he whispered, "you keep watch and don't make a noise." He slipped into her tiny hand one small bar of chocolate. "That's your share of the swag," he said and disappeared.

Muriel giggled when she thought of mamma's surprise. She listened a long time for return footsteps and wondered, after all, if papa had been caught. She was not at all comfortable, nor was she warm, and a few minutes later her pretty eyes closed, her head dropped, and she drifted into dreamland. Then she was awakened by her father. The mask was gone from the face, and he looked pale and troubled.

"Oh, you've come back!" she whispered, remembering the last caution she had received.

"Why are you here, dearie?" asked her father.

"You brought me, papa. Don't you remember—when we were playing burglars?"

Muriel's father telephoned to the police and reported the strange burglary. In the morning he spent an hour in convincing his little girl that he was not the man who wore the mask.

"Well, papa," she said in the end, "he was a very good Christmas burglar, wasn't he?"

Books as Christmas Gifts.

It is a great mistake to choose Christmas books entirely by covers and guesswork, and it is well to remember that it is better to postpone a gift for a few days rather than to buy a poor book. If you feel that you must buy books without reading them you can at least select something published by firms of good reputation, knowing that they will be careful what is sent out under their names.

SETTLED OUT OF COURT.

Racing For the Honest Lawyer in a Town in Denmark.

In telling of his boyhood home in Denmark, "The Old Town," Jacob A. Rile says that he does not remember that there were at any time more than two lawyers in the place. One was good, the other bad—not a bad lawyer perhaps, but reputed to be tricky, whereas the other was known to be honest itself.

It is therefore perhaps the best character I can give my people when I record the fact, writes Mr. Rile, that when two farmers quarreled, each sure that he was right, they made haste to hitch up to get first to the honest lawyer, and usually that was the end of the quarrel, for the last in the race was willing to make peace.

They used to tell of two well to do neighbors who had fallen out over a line fence and started simultaneously for town. Both had good teams, and they were well matched in the race.

For half an hour they drove silently alongside, each on his own side of the road, grimly urging on their horses, but neither gaining a length. At last as the lights of the town came into sight, for it was evening, a trace broke on one of the rigs, and the horses stopped. The other team whirled away in a cloud of dust.

"Hans," the beaten one called after him, and he halted and looked back, "are you going after Lawyer —?" naming the square one.

"I am that!" came back.

"Then let's go back. I'm beat." And back home they went and made it up.

A MERCENARY MARRIAGE.

Romance of Lady March and the Second Duke of Richmond.

One of the mercenary marriages which turned out happily was that of the second Duke of Richmond. He was married to Lady Sarah Cadogan as part of an agreement that her father's gambling debts should be canceled, Lord March (as he then was) being eighteen and the bride thirteen. Immediately after the wedding Lord March's tutor took him off to the continent for the grand tour, and Lady Sarah went back to her nursery. This is the sequel as told by Lady Russell in "The Rose Goddess."

"Three years elapsed. Lord March returned from his travels, but, having such an uninteresting recollection of his bride, was in no hurry to claim her and went the first evening of his return to London to the opera. There he noticed that all eyes—and longnettes—were directed to one box, where, surrounded by several persons, sat a most beautiful young creature. Turning to a man beside him, he asked who she was. 'You must be a stranger in London,' was the answer, 'not to know the reigning toast of the town, the beautiful Lady March!' Lord March lost no time in going to the box and introducing himself to his bride, with whom he ever after lived so affectionately that their devotion to one another became proverbial."

Cruelty to Women.

We wonder what death the man will die or what tortured life he will be caused to lead who discovered the little "trick" by which a woman's age can be ascertained beyond a doubt—that is to say, while her health is normal. The only instrument required is an ordinary watch. The wrist of the lady whose age is in question is the telltale, for when you count her pulse and it registers sixty-nine beats per minute you know that she is between twenty and twenty-five years old. During the next five years seventy-one beats go to the minute, and the "femme de trente ans" and over is entitled to seventy throbs. It is a pity the man of science who established these facts is not more exact when dealing with the women of riper age, for, according to rumour and tradition, it is only after she is thirty that a woman begins to leave off having birthdays.—Westminster Gazette.

Dropping Coaches on the Run.

The ingenious means by which one of the great railroad systems of England drops passenger coaches off at intermediate stations without slowing up the locomotive, even for a fraction of a second, in its speed of sixty or more miles an hour is called the "slip coach" system and is described in Popular Mechanics. It is a system never tried in America and consists in dropping, or "slipping," one or more of the rear coaches just before the station is reached. Undoubtedly many American tourists in England after alighting at their destination have been amazed to discover that the coach which they occupied was still beside them, while the locomotive and the remainder of the train were nowhere to be seen.

As George Sees the Peers.

"David Lloyd George," said the miner from Wales, "is a very witty speaker. I've heard him many a time in Carnarvon. Speaking in Welsh, he once ridiculed in Carnarvon the house of lords. He said the average peer thought so much of himself at family prayers he always made one well known passage run:

"Surely goodness and mercy shall follow me all the days of my life, and I will dwell in the house of lords forever."—London Globe.

His Wish.

"Life is something of a game after all," said the cynical person.

"Perhaps," replied Mr. Meekton, "but I wish Henrietta wouldn't regard it as bridge, with me forever playing opposite as dummy."—Washington Star.

CANDIDATE GIVES VIEWS;
TELLS WHAT HE WILL DO.

BELIEVES HIS EXPERIENCE AS AN OFFICER THOROUGHLY EQUIPS HIM TO SERVE AS MAYOR OF DAYTONA.

Editor Daily News—I will explain my opposition to a police judge and give my views in regard to municipal affairs.

I am opposed to anyone holding public office by appointment and believe that all officers should be elected by popular vote, the mayor being an executive officer and subject to removal by council for failure to perform his sworn duty.

The mayor is responsible for the enforcement of the law and is held responsible for the acts of the administration and will, if he does his duty, have a great deal of work to do beside the responsibility, and I believe he should have some compensation for his services.

Either the mayor or clerk will have to issue warrants and why not let the mayor, if he so desires, sit as judge? If the judge has all the powers, then why have a mayor?

If the charter is amended, let it read that the mayor, if he so desires, may appoint a deputy as judge and pay such a deputy out of the proceeds of the mayor's salary. This would leave it optional with the mayor whether or not he wished to preside as judge.

I would favor amending the charter so as to raise the millage and lower the assessment in order to give the city the right to raise money for municipal purposes and not have to be taxed by the state and county.

I would favor an active board of trade to act with the mayor and council as I believe it would be of great importance to the good of the city, as well as to the county. Good roads and streets need pushing at this time. Drainage and assistance to our farming interests should have the support of such a body.

I believe that the board of trade and council should act in harmony with the hotel organization for if the hotels are prosperous, Daytona will be prosperous.

I believe the Daytona newspapers should have the support of the whole city as there is nothing more important nor anything that speaks better for a city than bright and well patronized newspapers.

I would strictly enforce the sanitary ordinances as well as all other

I would see that all suspicious characters were promptly brought before the mayor and not allowed to accumulate and commit theft and disorder. "Break up the nest before the eggs are hatched," and we will have little trouble in keeping down crime.

My experience as an officer and my knowledge of municipal affairs would enable me to begin an active administration at once.

I am a candidate for mayor, judge or no judge, salary or no salary, and if elected will conduct myself and the office in a manner such that you will be proud to say that you cast your vote for me.

A trial is all I ask for.
